

ISEO[®] GERA WS camlock cylinder

SKU IS.GERA.WS.BK

ISEO GERA WS is a reversible key profile. The large number of profile variants in combination with 6 locking authorisation queries via the pin system offers a high degree of security against unauthorised re-locking. The nickel silver reversible keys are corrosion-free, low-wear, easy to handle and offer good locking convenience.

Key blanks of the profile series GERA WS-MC are not freely available in the trade.
